

Flu Shot: 2024–2025

Frequently Asked Questions

Below are frequently asked questions (FAQs) about Northrop Grumman’s flu shot program.

1. Why does Northrop Grumman provide flu shots at no cost for employees?

Each year in the United States, the flu hospitalizes 200,000 people. We want you to protect yourself, your loved ones and your community, which is why we’ve made getting the flu shot easy – and free.

2. Will Northrop Grumman offer on-site flu shots this year?

Yes, our [50+ on-site clinics](#) provide a convenient option for you to get your flu shot.

3. Is an appointment required to receive a flu shot at an on-site clinic?

Appointments are **strongly encouraged**. Walk-ins may be accepted but are subject to availability. To make an appointment, visit my.questforhealth.com and either log in or [create an account](#). If creating an account, use the registration key “Northrop2024”.

4. Do I need to fill out a consent form and bring it with me to my appointment?

No, the consent form will be a part of the online registration process.

5. My site isn’t hosting on-site clinics this year. Can I still get a flu shot at no cost?

Yes, if you’re enrolled in a Northrop Grumman medical plan, you can get your flu shot from your health care provider or at any other location that accepts insurance, including many pharmacies. A flu shot is considered preventive care and is 100% covered by your medical provider.

6. I don’t participate in a Northrop Grumman medical plan. Can I still get a flu shot at no cost?

Yes, you can get your flu shot at no cost at one of the on-site clinics.

7. I’m enrolled in Northrop Grumman’s Anthem medical plan. Where can I get a flu shot at no cost?

In addition to getting a flu shot at an on-site clinic, you can:

- Visit any Anthem participating health care provider and present your medical ID card.
- Visit [Anthem’s website](#) or use [Quantum Health](#) to locate a participating provider.
- Visit one of more than 60,000 pharmacies that participate in CVS’ Broad Vaccination Network and present your prescription card and a valid ID or provide your date of birth and the pharmacy can look up your information. Visit [Caremark.com](https://www.caremark.com) or download the CVS Caremark app to find a vaccine pharmacy in your network. Many national chain pharmacies are included.

8. I’m enrolled in Northrop Grumman’s Kaiser medical plan. Where can I get a flu shot at no cost?

In addition to getting a flu shot at an on-site clinic, you can schedule an appointment with [Kaiser](#) to get your flu shot.

9. Can my covered spouse/domestic partner and eligible dependents also get a flu shot at no cost?

Yes, as a preventative benefit, your covered family members can visit a participating pharmacy or their health care provider for a flu shot at no cost. Covered spouses, domestic partners and dependents aren't eligible for the on-site clinics.

10. I'm a contractor. Can I get a flu shot at no cost?

While you can't receive a flu shot at an on-site clinic, you can check with your company/benefits personnel to verify if flu shots are offered.

11. I work part-time. Can I get a flu shot at no cost?

Yes, part-time and casual employees can get a flu shot at an on-site clinic.

12. Are there any guidelines for who should or shouldn't get a flu shot?

Visit the [Centers for Disease Control and Prevention's \(CDC\) website](#) to view more information on flu shots and general guidelines.
